## Create a Virtual Recruiter (Resume Alert)

A virtual recruiter searches résumés to find candidates who have the qualifications you want. Schedule a virtual recruiter to run at specific intervals and notify you when candidates' résumés match your criteria.

1. *Click* the **Recruitment Services** link under the **Services for Employers** menu.
2. Select the **Virtual Recruiter** link.
3. *Click* the **Create New Résumé Alert** button.
4. Enter search criteria in the résumé search fields and *click* **Search** to see résumés that matched your criteria.
5. *Click* **Save Search** at the bottom of the page. The résumé search criteria will appear in the Search Criteria Information area.
6. Complete the Virtual Recruiter Information area and give your Virtual Recruiter Alert a specific title since you can have multiple alerts working at the same time.
7. Select how often you want the Virtual Recruiter to run, how you want to be notified, and when the search should expire.

Your résumé alert is saved in the Virtual Recruiter table from which you can view and modify alerts, run a manual search, or delete the alert. Watch *The Virtual Recruiter for Employers* training video for more details. Access training videos through the **Learning Center** link under the **Other Services** menu.

## Alert Candidates of Job Openings

When you find candidates who match your criteria, *click* **Details** in the Action column, *click* **Contact Information**, then *click* **Send this Individual a Message** to send a message directly to the job seeker's account.
